Marc Masotti  
C.E.T. Vice President & GM  
Masotti Construction Inc.  
1780 North Talbot Road  
Windsor, ON N9A 6J3

Dear Marc

I would like to commend you and your team on the recent work completed for Checker Industrial on our training facility. We set out on this journey to create a bright new state of the art training room where we could offer our customers valuable training. Working with you from beginning to end has been very enjoyable and stress free. I would highly recommend dealing with Masotti Construction to anyone looking to build, renovate, reface or upgrade a project.

Throughout our history Checker Industrial's long standing relationship with Marc Masotti and Masotti Construction began while renovating our employee restrooms, from there we decided to renovate and reface our private offices for management. We were so impressed we then added an entirely new glass office inside our main building. Now, this last project has been nothing shy of incredible.

I wanted to personally thank you for your commitment to customer satisfaction and quality workmanship. You provide each job with top quality contractors that put the customer's happiness first and foremost. We look forward to working with Masotti Construction in the future as we grow and expand each year.

Sincerely,
