

To whom it may concern,

For the past 20 years, I have had the pleasure of working with and getting to know Marc Masotti. Since my first 4-unit project that was built by Marc in the year 2000, his talent and hardworking nature made my decision for him to be a lifelong client very easy. I have worked alongside many builders over my 30 years in selling Real Estate and Marc, along with his dedication and commitment to Masotti Construction, stands out to me to be one of our areas most experience contractors for several reasons. His professionalism, trustworthiness, and charismatic social skills allow him to easily build excellent rapport with his clients. His meticulousness attention to detail clearly separates his work from others. I would wholeheartedly recommend Marc Masotti and Masotti Construction to my clients without any reservations.

A few years ago, I was involved in a lease build out in which Masotti Construction completed the renovation of office space for the Windsor Port Authority. When speaking to the Harbormaster they were extremely satisfied with the professionalism along with the quality of work and service that was offered by Masotti Construction. Four years ago, in thinking about preparing for my retirement, I wanted to build upper end townhomes to rent out, this investment was pertinent to my future, I knew there was no other builder to look for. I personally had him construct the buildings – and was not at all surprised in how easy he made the process for me. The strong values he holds in his work ethic are very apparent. The most recent project that I had the pleasure of being involved with was a 12 Unit Rental complex in the heart of Tecumseh Ontario referred to as St. Anne Arms which was a tremendous success as there was a waiting list to get into the building. The town's Building and Planning departments were so satisfied with the workmanship of Masotti Construction, that they referred Marc and his company to an Independent Planning Consultant to consider having her clients use Masotti Construction as the contractor.

I believe that Marc's success is also contributed with the team effort of Masotti Construction who is made up of an experienced staff, who is knowledgeable, trustworthy, and tremendously reliable in this field. It is a pleasure to work with them.

Tarion holds an important role in protecting our public. I would encourage you to have a cup of coffee with Marc, you will clearly see his character and values. Please feel free to contact me if you have any questions.

Best Regards,
